

Vivek Vagadiya

React.js Frontend Developer

vivekvagadiya47@gmail.com | +91 9574410907 | Surat, Gujarat, India | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

React.js Frontend Developer with 1.5 years of experience building web applications using React.js, JavaScript, Redux Toolkit, REST APIs, WebSockets, and Material UI. Experience developing HRMS, sports betting, casino, wallet, and service-based platforms with role-based access, authentication, real-time updates, and responsive interfaces.

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

State Management: Redux, Redux Toolkit, Context API

UI & Styling: Material UI (MUI), Tailwind CSS, SCSS, Responsive Design

Tools: Firebase, Git, GitHub, Postman

Concepts: RBAC, Authentication & Authorization, React Hooks, Component Lifecycle, Performance Optimization, Code Reusability

PROFESSIONAL EXPERIENCE

React Frontend Developer, Prometteur Solutions Pvt. Ltd.

Surat, India | Mar 2025 – Present

- Built reusable and responsive UI components using React.js and Material UI, improving cross-device consistency across multiple screen sizes.
- Developed a Role-Based Access Control (RBAC) system enabling dynamic UI rendering for Admin, HR, and User roles, improving access management and security.
- Managed application state using Redux Toolkit for a live betting platform, handling data from multiple REST API endpoints and real-time updates.
- Refactored legacy components into reusable modules, improving code reusability and reducing duplicate implementation across features.
- Integrated REST APIs using Axios with proper error handling and loading states to enhance user experience.

KEY PROJECTS

GoCheckAM Web & Admin

React.js, Redux Toolkit, SCSS, REST APIs, WebSocket

- Developed and maintained GoCheckAM Web & Admin using React.js, Redux Toolkit, SCSS, and REST APIs for sports betting, casino, wallet, and user management.
- Integrated payment gateways, deposit/withdrawal flows, KYC verification, and wallet operations, ensuring reliable and secure transaction handling.
- Implemented real-time features using WebSockets, including live chat, announcements, daily streak rewards, and dynamic betting/platform updates.
- Built and optimized authentication and validation flows, including Google OAuth, phone/email authentication, OTP verification, and Yup-based form validation.
- Developed responsive and reusable UI components with multi-language support (i18next) and optimized user/admin workflows across desktop and mobile devices.

Betting World (Tung247) – Admin & User Panels

React.js, Redux, Redux Toolkit, Context API, WebSocket, REST APIs

- Developed Admin and User platforms supporting six betting types: Straight, Parlay, Teaser, IfBet, A-R, and PropFecta.
- Developed RBAC-based multi-role system (Admin → Bookie → Agent → Customer) with dynamic UI rendering.

- Managed complex global and nested state using Redux Toolkit and Context API for multiple bet types, user roles, and live updates.
- Implemented admin configurations for limits, juice, and risk controls across sports and markets.
- Implemented real-time odds updates and bet synchronization on the user platform using WebSocket integration.

HRMS – AI-Powered Recruitment System

React.js, Redux, Material UI (MUI), REST APIs

- Developed an end-to-end recruitment pipeline (job posting → application → multi-stage selection workflow).
- Integrated an AI-powered job description generator using OpenAI/OpenRouter APIs to generate reusable job descriptions.
- Implemented RBAC system supporting multiple user roles with dynamic permission-based UI rendering.
- Built a reusable frontend architecture to support future feature expansion.

CloudPouss – Elder Service Platform

React.js, Next.js, Firebase, Tailwind CSS, REST APIs

- Built real-time 1:1 chat and price negotiation system using Firebase for Elder–Professional interaction.
- Implemented dynamic negotiation workflow (offer → counter-offer → acceptance → payment trigger).
- Integrated chat with the service lifecycle to ensure synchronized communication and booking flow.
- Developed Admin Panel (React + Tailwind CSS) for managing users and platform activities.

EDUCATION

B.E. – Information Technology | CGPA – 8.5

Sardar Vallabhbhai Patel Institute of Technology (SVIT), Vasad | 2025
